SUPPLEMENT **08/09**

Pro Shop

one choice | one place | one shop

Welcome to the 2008 Pro Shop Catalogue Supplement. Together with the original "Green" edition of the catalogue you have all the info you need to help complete your next install, gig, show, project... Whatever you have planned for the upcoming season.

Due to the high rate of technical change and advancement we experience in the market today (for example the new range of Tri-Colour LED's), we have decided to release this special Pro Shop Catalogue Supplement to stay on top of these rapid shifts. With the latest in LED technology as well as plenty of other useful additions to the range, this supplement ensures there is still "One choice, One place, One Shop"

TRADE CATALOGUE
LIGHTING ENTERTAINMENT

We all knew that LED products would eventually become as bright as traditional fittings, it seems that has all happened sooner than we thought. The all new LED Pro PAR 64 takes giant steps forward in its use of technology to ensure the highest quality of output. First off the 20 x 3 Watt LED's are using "tri-colour" technology, meaning that each LED contains a red, green and blue chip; colour is mixed before it leaves the fitting, creating highly saturated colours free of the chromatic shadowing that is evident on standard RGB units. Further to that the LED software that controls the dimming has high refresh rates ensuring that the output will not flicker on screens in television and film applications. The all new cable entry ensures that all cables are kept clear if hanging from truss and nice and neat if floor mounting on its double yoke system. Finally, an LCD display on the rear of the unit is the interface for DMX selection and stand-alone control.

TECHNICAL SPECIFICATIONS

- > 20 x 3w "3-In-1" LED's
- > Full range dimming levels of Red, Green and Blue within LED's for full colour mixing
- > 3w "3-In-1" LED's allow for colour mixing without normal chromatic shadowing, Silent, fanless technology, Double yoke for floor standing, Flicker free operation
- > DMX, Auto Mode, Audio, Static Colour Selection via digital LCD menu system
- > 5 Pin
- > 7 Channels
- > 25° Optics
- > 225 x 225 x 325mm
- > 3.4kg

TECHNOLOGY

TRI-Colour
TECHNOLOGY

LED Pro PAR 64

order code. LEDPAR642 Black
LEDPAR643 Polished

LED Pro PAR 56

order code. LEDPAR562 Black
LEDPAR563 Polished

With the massive advances in LED technology it has become much easier to produce and sell simple items such as LED PAR Cans. As a result we developed a new improved LED PAR 56 specifically aimed at the professional market.

With twin yoke for floor standing, LCD display interface, logical data connection and non-flicker software it is perfect for any professional application from corporate productions to television, to installation...

...All at a price that remains competitive to lesser quality units.

TECHNICAL SPECIFICATIONS

- > 151 x 5mm LED's
- > Full range dimming levels of Red, Green and Blue within LED's for full colour mixing, Double yoke for floor standing, Flicker free operation
- > DMX, Auto Mode, Audio, Static Colour Selection via digital LCD menu system
- > 5 Pin
- > 7 Channels
- > 25° Optics
- > 210 x 222 x 222mm
- > 1.8kg

With the huge success of the Honeycomb series we have decided to improve the model making it lighter and more functional for the touring market. These new "black" versions are 20% lighter and feature smaller pixel control.

LED Honeycomb 72 Touring

order code. LEDWSH372

As well as the weight reduction, the super popular "72" now allows static colour selection and stand alone control via the digital menu. Furthermore as well as the original 6 channel mode, it can also be split into 4 controllable segments for greater pixel effects

TECHNICAL SPECIFICATIONS

- > 72 x High Powered 1 Watt LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing, IP Rated for outdoor use, 4 individual controllable segments
- > DMX, Auto Mode, Audio, Static Colour Selection via digital menu system
- > 5 Pin
- > 6 / 13 Channels
- > 25° Optics
- > 681 x 178 x 110mm (inc. yoke)
- > 7kg

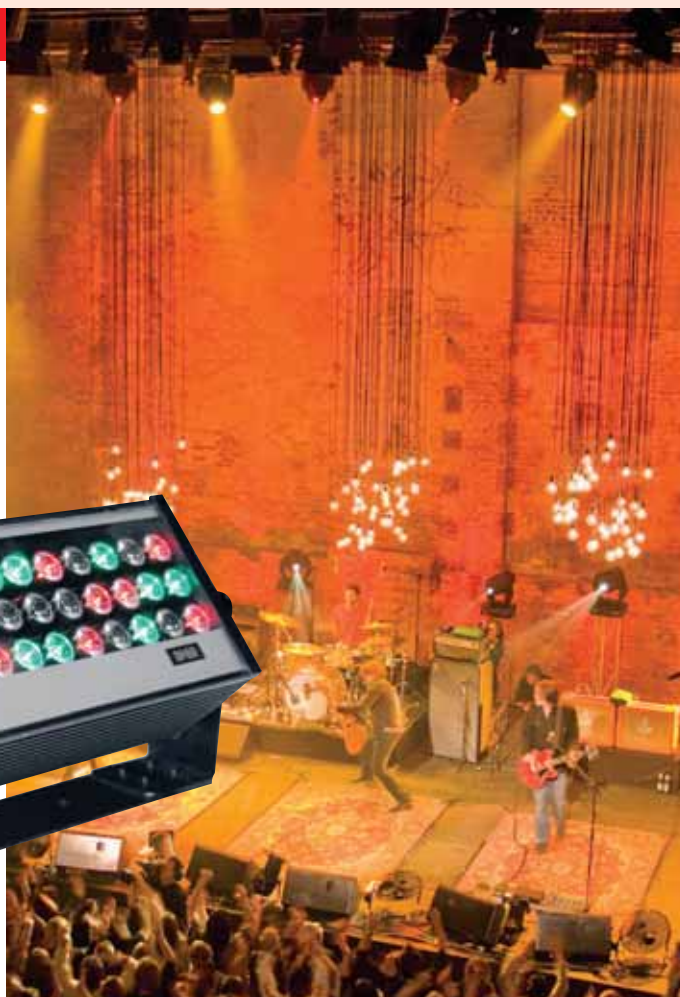

LED Honeycomb 36 Touring

order code. LEDWSH371

Like it's big brother, the "36" has also been upgraded in its control interface allowing for both the original 3 channel mode and a wide mode control of 2 individual pixels.

TECHNICAL SPECIFICATIONS

- > 36 x High Powered 1 Watt LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing, IP Rated for outdoor use, 2 individual controllable segments
- > DMX, Auto Mode, Audio, Static Colour Selection via digital menu system
- > 5 Pin
- > 3 / 7 Channels
- > 25° Optics
- > 381 x 178 x 110mm (inc. yoke)
- > 4kg

LED Smart Pixel Wash

order code. LEDWSH080

.....

Expanding the range of simple yet very useful LED wash fitting is the LED Smart Pixel Wash. Set into a simple housing, the unit features high intensity 5mm LED's. It can either be controlled as a single bank for simple colour wash or up to 8 pixel squares can be controlled individually for dynamic animating effects.

TECHNICAL SPECIFICATIONS

- > 648 x 5mm LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing
- > 8 individual controllable segments
- > DMX, Auto Mode, Audio, Static Colour Selection via digital menu system
- > 3 Pin
- > 3 / 25 Channels
- > 25° Optics
- > 430 x 236 x 78mm
- > 5kg

LED Truss Warmer

order code. LEDTRU100

.....

Finally a truss warming system that really works; bright, narrow and easy to use...The Pro Shop LED Truss Warmer is perfect for colour toning your next truss application.

Featuring 9 x High Powered LED's that are fitted with ultra narrow lenses for long throws of colour and to reduce the amount of light spill out the side of the truss. A narrow beam is important to increase the efficiency of the fitting by not "wasting" any light out the side as well as applications such as TV set design where colour spill is definitely one to avoid.

TECHNICAL SPECIFICATIONS

- > 9 x High Powered 1 Watt LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing
- > DMX, Auto-mode, Audio Static Colour selection via Digital menu system
- > 3 & 5 Pin
- > 3 or 5 Channels
- > Ultra narrow 5° Optics
- > 270 x 220 x 310mm
- > 1.8kg

LED OctoStrip

order code. LEDSTP120 OctoStrip
LEDSTP121 Controller

The extremely bright and compact OctoStrip system allows vibrant colour mixing of each strip for use in back drops on stage, nightclub features and decoration and theming for trade show booths. Setup is made quick and easy by a simple 5 pin XLR connection to the Pixel Drive controller, which is in turn connected to your DMX controller as well as having a number of stand alone functions. Each strip is compact and mountable directly to a surface or to a rigging device via a discreet mounting yoke on the rear of the unit.

TECHNICAL SPECIFICATIONS

- > 180 x High Powered SMD RGB LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing, Links to pixel drive controller for DMX control, Even colour mixing per strip, High refresh rate of LED's for television use
- > DMX, Auto Mode, Master/Slave
- > 5 Pin
- > 5, 12, 24, 48 Channels
- > 120° Diffused Lens Optics
- > 1003 x 30 x 94mm (Fixture)
- 380 x 228 x 75mm (Controller)
- > 1.9kg (Fixture)
- 5.5kg (Controller)

LED lighting

LED Mega Flower

order code. LEDEFF101

The expansion of LED technology has hit the ground running and now with the LED Mega Flower we can achieve multi-coloured bouncing beams. Super bright and super wide the Mega Flower will fill any dance space.

TECHNICAL SPECIFICATIONS

- > 469 x 5mm LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing
- Dynamic beam effects from unique lens system
- > DMX, Auto Mode, Audio, Master/Slave
- > 3 Pin
- > 10 Channels
- > Multi Beam Super Wide Spread Optics
- > 250 x 250 x 280mm
- > 5kg

LED Super Flower

order code. LEDEFF100

The budget version of the Mega Flower allows an equally dynamic effect but with less LED's, a LED effect to meet that tighter budget.

TECHNICAL SPECIFICATIONS

- > 162 x 5mm LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing
- Dynamic beam effects from unique lens system
- > DMX, Auto Mode, Audio, Master/Slave
- > 3 Pin
- > 9 Channels
- > Multi Beam Wide Spread Optics
- > 250 x 250 x 280mm
- > 4.3kg

Welcome to the new range of outdoor LED fittings from Pro Shop. With the advancement in LED technology outdoor fittings have become extremely bright whilst ensuring the usual benefits of LED including power saving, safety and extended life. Furthermore the entire range features the latest Tri-Colour Technology for the greatest output and lack of chromatic shadowing. Couple that together with high quality stainless steel housings and high technology, flicker free control, you have truly a professional range of exterior fittings for function areas, beer gardens, ponds, landscapes, architecture, parks, bars, television sets, etc... There are a myriad of uses.

LED Underwater Light

order code. LEDOUT001

This unit is IP-68 rated meaning that it is usable to a depth of 2m underwater and its high grade stainless steel body allows its use in both salt and chlorinated treated pools and ponds; of course as well as being ideal for use in coastal areas. The unit comes included with a removable floor standing tripod allowing it to be used in temporary applications or other areas such as exterior building features.

TECHNICAL SPECIFICATIONS

- > 9 x 3w "3-In-1" LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing, 3w "3-In-1" LED's allow for colour mixing with normal chromatic shadowing, IP68 for Underwater Use to 2m, High Grade Stainless Steel Housing, Floor Stand Tripod Included
- > 24v DC connection to PWM Dimmer
- > 25° (optional 45°) Optics
- > 161 x 161 x 173mm (including Tripod)
- > 2.77kg

LED Underwater Recessed Light

order code. LEDOUT002

This unit is also IP-68 rated for submersible applications, but this unit is designed for flush mounted applications in the ground or wall features. The stainless steel housing ensures longevity of any installation. The 5mm Tempered Glass ensures strength for impact from the top, it allows 500kg distributed load. The unit comes including a plastic installation sleeve.

TECHNICAL SPECIFICATIONS

- > 12 x 3w "3-In-1" LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing, 3w "3-In-1" LED's allow for colour mixing with normal chromatic shadowing, IP68 for Underwater Use to 2m, High Grade Stainless Steel Housing, Recessed for Inground Use, 5mm Tempered Glass, 500kg Load, Including Plastic Installation Sleeve
- > 24v DC connection to PWM Dimmer
- > 25° (optional 45°) Optics
- > 118mm Dia. x 45.5mm (Installation Sleeve 150 x 120mm)
- > 2.45kg

LED Recessed LED Linear Light

order code. LEDOUT003

This recessed linear LED source is ideal for both indoor and outdoor applications and is ideal for installations around balconies, hallways and stairs. The unit comes including an installation sleeve and its high powered 3watt LED source ensures an extremely bright output.

TECHNICAL SPECIFICATIONS

- > 6 x 3w "3-In-1" LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing, 3w "3-In-1" LED's allow for colour mixing with normal chromatic shadowing, IP67 for Outdoor Use, High Grade Stainless Steel Housing, Recessed for Inground Use, 5mm Tempered Glass, 500kg Load, Including Installation Sleeve
- > 24v DC connection to PWM Dimmer
- > 25° (optional 45°) Optics
- > 592 x 63 x 65mm
- > 2.1kg

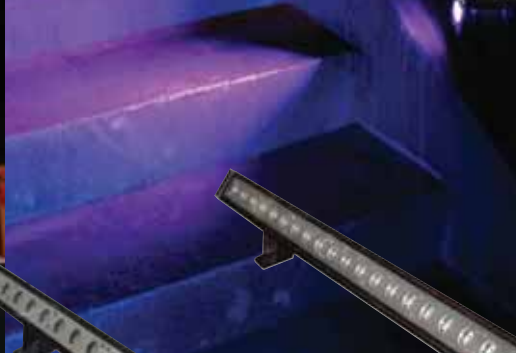

LED Outdoor Landscape Light

order code. LEDOUT004

Like the rest of the range this unit features a tough, styled for any modern application such as designer outdoor areas in pubs, bars and restaurants. Like the rest of the range this unit features a sealed housing and weatherproof cable glands. It is also ideal for gardens and landscape features.

TECHNICAL SPECIFICATIONS

- > 5 x 3w "3-In-1" LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing, 3w "3-In-1" LED's allow for colour mixing with normal chromatic shadowing, IP65 for Outdoor Use, High Grade Stainless Steel Housing
- > 24v DC connection to PWM Dimmer
- > 45° Optics
- > 95 x 150 x 210mm
- > 0.8kg

LED Outdoor Strip 9

order code. LEDOUT010

This 400mm Exterior LED Strip is ideal for a number of both indoor and outdoor applications where a compact, yet high output fixture is required. This unit uses 9 x 3watt "3-in-1" LED's for super bright output and no chromatic shadowing along the edge of the lit surface.

TECHNICAL SPECIFICATIONS

- > 9 x 3w "3-In-1" LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing
- 3w "3-In-1" LED's allow for colour mixing with normal chromatic shadowing
- IP65 for Outdoor Use
- > 24v DC connection to PWM Dimmer
- > 25° Optics
- > 400 x 60 x 110mm
- > 1.1kg

LED Outdoor Strip 18

order code. LEDOUT011

This 800mm Exterior LED Strip is ideal for a number of both indoor and outdoor applications where a compact, yet high output fixture is required. This unit uses 18 x 3watt "3-in-1" LED's for super bright output and no chromatic shadowing along the edge of the lit surface.

TECHNICAL SPECIFICATIONS

- > 18 x 3w "3-In-1" LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing
- 3w "3-In-1" LED's allow for colour mixing with normal chromatic shadowing
- IP65 for Outdoor Use
- > 24v DC connection to PWM Dimmer
- > 25° Optics
- > 800 x 60 x 110mm
- > 1.4kg

LED Outdoor Strip 27

order code. LEDOUT012

This 1200mm Exterior LED Strip is ideal for a number of both indoor and outdoor applications where a compact, yet high output fixture is required. This unit uses 27 x 3watt "3-in-1" LED's for super bright output and no chromatic shadowing along the edge of the lit surface.

TECHNICAL SPECIFICATIONS

- > 27 x 3w "3-In-1" LED's
- > Full range dimming on Red, Green and Blue LED's for full colour mixing
- 3w "3-In-1" LED's allow for colour mixing with normal chromatic shadowing
- IP65 for Outdoor Use
- > 24v DC connection to PWM Dimmer
- > 25° Optics
- > 1200 x 60 x 110mm
- > 2.7kg

LED Control 350

order code. LEDCON350

The LED Control 350 is an integrated LED control and power supply to suit the new range of Pro Shop Outdoor LED fittings. The unit includes a 24v DC 350w Power Supply and DMX interface that allows you to control the levels or RGB on these fittings. It also has a number of stand alone functions.

TECHNICAL SPECIFICATIONS

- > 24VDC 350w Power Source and PWM DMX Dimmer
- > Full range dimming levels of Red, Green and Blue within LED's for full colour mixing
- Integrated Powersupply System
- Flicker free operation
- > DMX, Auto Mode, Audio, Static Colour Selection via digital LCD menu system
- > 5 Pin
- > 3 or 6 Channels
- > 19" 3RU (Power Supply and DMX Unit)
- > 7kg

Each unit is sold individually

LED V-BAR 270

- order code. LEDBAR270 LED V-Bar 270
- LEDBAR271 Frost Diffuser Lens
- LEDBAR272 Blinder Bracket
- LEDBAR273 Batten Bracket
- LEDBAR274 Hinged Angle Bracket

The V-BAR-270 is a versatile, compact and light weight, LED colour wash for any indoor application. This fixture features 270, 5mm LEDs with RGB colour mixing allowing the user to achieve a vast array of colours. Multiple units can be used together to create back drops in LED mapping applications or simply as an abstract effect; similarly animating shadow effects are achieved when used as foot lights. Clubs can also benefit from their low operating costs, long life and their rich, colourful effect. Various mounting accessories are also available.

- TECHNICAL SPECIFICATIONS**
- > 270 x 5mm LED's
 - > Full range dimming on Red, Green and Blue LED's for full colour mixing
 - > 6 individual controllable segments
 - > Linkable for larger banks of units
 - > Optional diffuser lens
 - > DMX, Auto Mode, Master/Slave
 - > 5 Pin
 - > 5, 8, 11, 14, 20, 23 channels
 - > 15° Optics
 - > 250 x 93 x 212mm
 - > 3.1kg

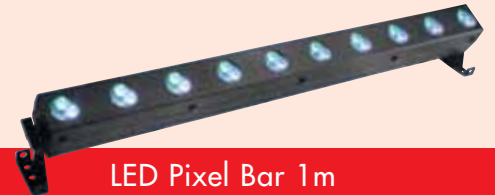

LED Mapping systems have become very popular in many different applications and with products like the new Pixel Bar range it is easy to see why.

LED Pixel Bar 50cm

order code. LEDBAR050

LED Pixel Bar 1m

order code. LEDBAR100

The half version allows use in more compact applications or to supplement the 1m unit in larger grid setups.

- TECHNICAL SPECIFICATIONS**
- > 15 x High Powered 1 Watt LED's
 - > Full range dimming on Red, Green and Blue LED's for full colour mixing
 - > 5 individual controllable segments
 - > Flicker free operation
 - > Continuous power linking
 - > DMX, Auto Mode, Audio, Static Colour Selection
 - > 3 & 5 Pin
 - > 3, 5, 7 or 15 Channels
 - > 25° Optics
 - > 570 x 104 x 150mm
 - > 3.2kg

The LED Pixel Bar 1m features 10 evenly spaced LED hearts that can be individually controlled to create dynamic backdrops or flowing effects for foot lights. Its high powered LED source means that it is also suitable as a linear wash source.

- TECHNICAL SPECIFICATIONS**
- > 30 x High Powered 1 Watt LED's
 - > Full range dimming on Red, Green and Blue LED's for full colour mixing
 - > 10 individual controllable segments
 - > Flicker free operation
 - > Continuous power linking
 - > DMX, Auto Mode, Audio, Static Colour Selection
 - > 3 & 5 Pin
 - > 3, 5, 6, 15 or 30 Channels
 - > 25° Optics
 - > 1050 x 104 x 150mm
 - > 5.1kg

Martin Magnum 2500 Hz

order code. MARHAZ250

The Magnum 2500 Hz is a plug-and-play, easy-to-use hazer suitable for DJ's, venues, bars, and clubs. With a large fluid container and optional DMX, the hazer is ideal for installations and temporary applications alike. Rental and production companies can also benefit from its simple setup and operation.

The Magnum 2500 Hz uses a newly-developed 900 W heat exchanger to produce a massive 2500 m³ of haze, which is then evenly distributed by the integrated fan.

Tough The Magnum 2500 Hz comes complete with all the technical excellence you expect from the Magnum range. Built rugged, the Magnum 2500 Hz is ideal for discrete floor placement, with the advantages of easy access.

Remote control Featuring the same machine-saving overheat protection as Martin's other fog and haze machines, the economically-priced Magnum 2500 Hz will provide years of maintenance-free operation. Add the optional DMX interface for increased flexibility and easy remote programming and control.

Fluid options The Magnum 2500 Hz has a 3.8 litre fluid capacity and is capable of generating a uniform canvas of haze, using the Martin Pro Haze Fluid. Specially formulated and water-based, all Martin fluids are effective, safe, and economical.

TECHNICAL SPECIFICATIONS

- > 900w Heat Exchanger
- > Up To 2500m³ per Minute Output
- Continuous Output, No Need to Reheat
- 6 - 8 Minute Warm Up Time
- 3.8L Fluid Tank, Stored Internally to reduce risk of damage
- Peak Fluid Consumption 10.5mL / Minute
- > Included Remote Control (Added Optional DMX Interface)
- > RJ45 Connection for Remote, (3 and 5 Pin XLR when using DMX Interface)
- > 1 Channel
- > 455 x 285 x 280mm
- > 11.9kg (Dry Weight)

SmartMAC Touring Case

order code. MARMAC165

To meet the massive demand of SmartMAC in the corporate rental and AV markets Martin have now released their dual touring case for the all new SmartMAC. The key features on the SmartMAC such as its long life lamp, on-board programming ability and its silent operation, not to mention its chic look and optional white finish makes it ideal for corporate production and trade show booths... Now you can protect your investment to and from the show.

...ready to entertain you!

Single Channel Analogue Strobe Control

order code. PSHSTRO01

The brand new single channel analogue strobe controller connects your analogue strobe via a 1/4 inch jack connection to control the rate of the flash.

TECHNICAL SPECIFICATIONS

- > 0-10v Analogue Strobes such as Max Strobe and DJ Strobe
- > 1/4" Jack
- > Flash Rate Control

Single Channel Analogue DMX Interface

order code. PSHSTRO02

For those occasions that you wish to control analogue strobes via a DMX signal, this is the controller for you. You simply plug your analogue strobe into its 1/4" jack outlet and plug your DMX signal into the XLR input; you can then control your previously analogue strobe with a DMX controller.

TECHNICAL SPECIFICATIONS

- > Analogue Strobes via DMX Signal
- > 1/4" Jack (to strobe), 3 pin XLR (to/from DMX)
- > Flash Rate Control, Frequency Control

Pro Shop

Four Channel Strobe Control

order code. PSHSTRO04

The new 4-Channel analogue strobe controller is far more compact and functional than previous versions. With a 4 output multi-plug it can connect to 4 feeds of strobes which can not only be individually flashed but can be chased among themselves.

TECHNICAL SPECIFICATIONS

- > Analogue Strobes
- > 4 x 1/4" Jack
- > Individual Output Control, Flash Rate Control, Audio Response

Light Modulator Mk. II

order code. PSHCON004

The all new Light Modulator Mk II is the latest evolution of the hugely popular industry favourite. Its new look, improved internal components and advanced software ensures that the old favourite still remains valid. Furthermore its ability to connect it to a drop box and via DMX control you can switch a further 4 units such as effects to complete your light show; the popular "4-Pack" can simply become a popular "8-Pack".

TECHNICAL SPECIFICATIONS

- > 4 Output Dimmer Pack, 5A per Channel (20A feed)
- > A variety of auto chases, Audio trigger via internal mic and RCA input, Master Dimmer / Background Dimmer, DMX Connection to Light Modulator Drop Box for an extra 4 switching channels
- > 3 & 5 Pin DMX Output
- > 4 Switching DMX Channels Output
- > 19" 3RU
- > 4.8kg

Light Modulator Drop Box

order code. PSHCON005

The Light Modulator Drop Box can be used with the Light Modulator Mk II to extend it and allow for an extra 4 channels of switching controls; this means you can control the dimming on your PAR cans via the faders and an extra four latch buttons on the unit sends a DMX signal to the Drop Box to switch the outputs for such things as effect lights. The Drop Box can also be connected to any DMX controller and addressed for switching or dimming of its four outputs.

TECHNICAL SPECIFICATIONS

- > 4 Output Dimmer/Switch Pack
- > DMX Dimming/Switching over 4 Channels
- Adaptable to Truss Mounting
- > Manual Control or 4 DMX Channels
- > 3 & 5 Pin DMX Output
- > 4 Switching DMX Channels Output
- > 19" 2RU
- > 3.1kg

3/5 Pin DMX adapters

order code. PSHDMX001
PSHDMX002

Due to high demand, we are now offering simple 3 to 5 Pin adapters; competitively priced... Everyone should have plenty in their kit.

3 Pin DMX Cables

order code.	PSHDMX101	1m
	PSHDMX103	3m
	PSHDMX105	5m
	PSHDMX110	10m
	PSHDMX120	20m
	PSHDMX130	30m
	PSHDMX150	50m

To supplement the existing range of professional, touring grade 5 Pin DMX cables, we are now offering a range of high value 3 Pin DMX cables. Suitable for installation, hire and basic production market segments, this range offers an ideal mixture of price and quality whilst following the strict guidelines of true DMX cable specification. All cable lengths come including two pieces of "heat shrink" pre-fitted for simple identification of your cables.

The ever expanding range of rigging from Pro Shop has added another couple of parts to assist your next project.

2 inch Pipe Barrel Joiner

order code. KUPRIG080

This unit will allow you to solidly mount two pieces of 2 inch pipe together to assist rigging and draping applications.

500mm Arm Coupler

order code. KUPRIG090

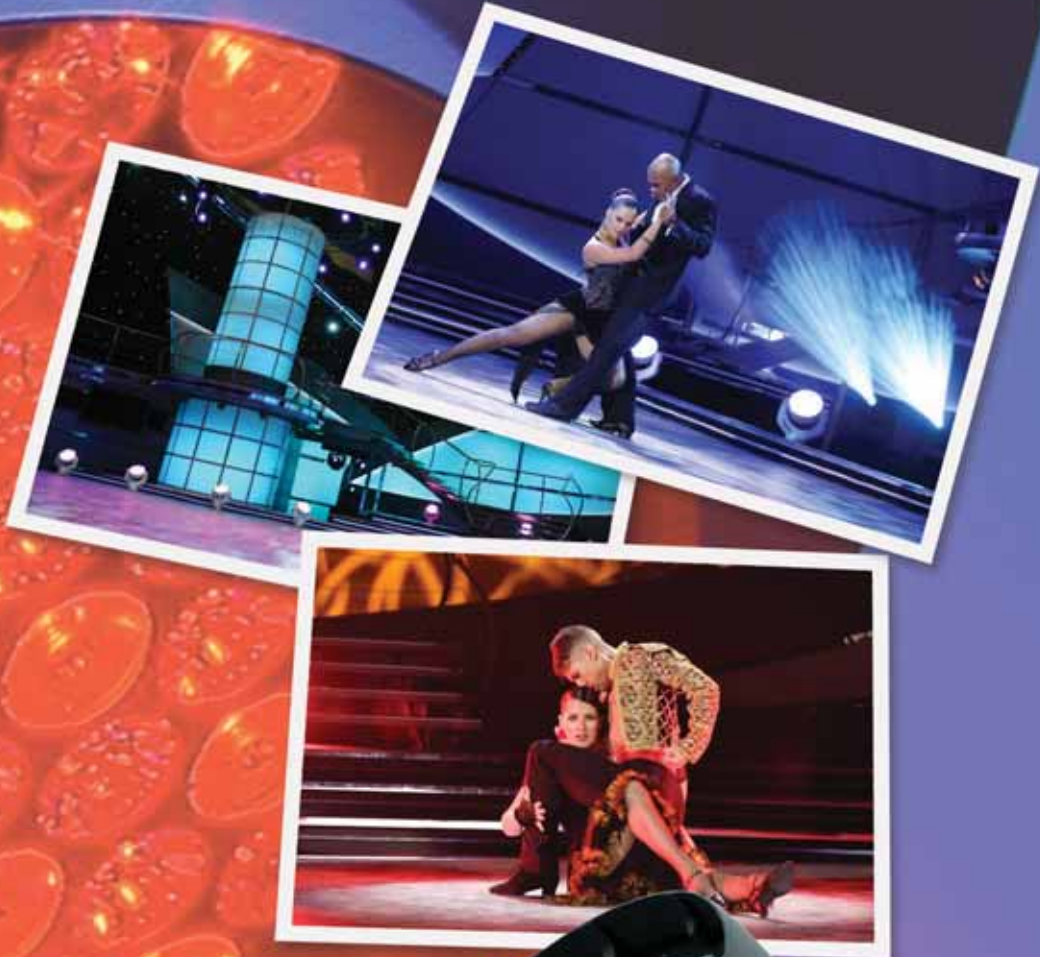

With a 500mm 2 inch bar attached to a solid half coupler, the Arm Coupler can be used for outrigging on vertical truss for lights, speakers, banners, in fact any number of items.
