LED FRESNEL WW MANUAL FOCUS

LEDFRE100

Using a massive 90Watts of Warm-White LED power this Fresnel is a great option for venues, theatres, studios and production companies looking to increase the versatility of their white light fixtures.

Boasting an excellent colour temp of 3100K mean this is a ready replacement for your tired and worn out existing fittings. The light output is nice and flat yet the Fresnel has a manual zoom of 10 – 54degrees. Operation is almost silent, so performance spaces can rest easy.

Powercon connections in and through as well as 3 and 5pin DMX on board only increases the flexibility of these workhorses.

Barndoors are optional available upon request.

Specifications

Product	LED Fresnel WW Manual Focus
Code	LEDFRE100
LED Quantity	9 pcs
Power Supply	100-240V AC
Power Consumption	100W
Connection	DMX in/out, Power in/out
