LED FRESNEL WW DMX ZOOM

LEDFRE110

Using a massive 160Watts of Warm-White LED power this Fresnel is a great option for venues, theatres, studios and production companies looking to increase the versatility of their white light fixtures.

The benefit of this fixture is the Electronic Zoom. Climbing up ladders just to adjust your zoom is a thing of the past. Set the position of the unit and have the freedom of 15 – 45 zoom at your figure tips.

Boasting an excellent colour temp of 3100K mean this is a ready replacement for your tired and worn out existing fittings. The light output is nice and flat yet the Fresnel has a manual zoom of 10 – 54degrees. Operation is almost silent, so performance spaces can rest easy.

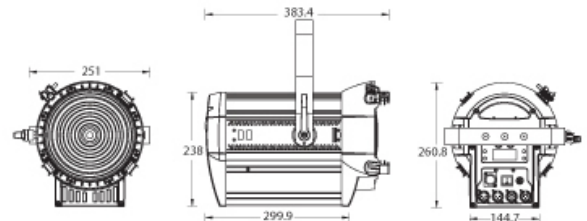

Powercon connections in and through as well as 3 and 5pin DMX on board only increases the flexibility of these workhorses.

Barndoors are optional available upon request.

Specifications

Product	LED Fresnel W/W DMX Zoom
Code	LEDFRE110
LED Quantity	16
Power Supply	100-240V AC, 50/60Hz
Power Consumption	180W
Strobe	0 - 20Hz
Control Protocol	DMX512
Fixture Connection	DMX In/Out, Power In/Out
Dimmer	0 - 100°
Electric Zoom	15° - 45° (16-bit)
Operation Temperature	-20°C ~ 45°C
Cooling	Forced Convection
Housing	Extruded Aluminum
Colour	Black
Dimensions	286(W) x 417(D) x 260(H)mm
Weight	6.6kg
