

Cyber Beam

EKLMOV050

The Cyber Beam is a compact powerhouse fixture capable of producing razor-sharp beams that slice through fog, haze and strobe heavy environments. Featuring a large 110mm front lens and an ultra-tight 2.3° beam, it delivers a punchy, solid beam that outperforms expectations at just 7kg. Equipped with a fast, responsive colour wheel, an 8-facet rotating prism, and infinite pan and tilt capabilities, the Cyber Beam is built to captivate any crowd.

Cyber Beam Specifications

Optical System

Lamp Source	50W LED
Beam Angle	2.3°
CCT	7200K

Colour

1x Colour Wheel (14 filters)

Electrical Specifications
