

dmXLAN switch5

Product ref: DLS5DC

5-port Ethernet switch supplying Power over Ethernet

The dmXLAN switch 5 has been designed specifically for the high data rates and reliability required for live entertainment technology applications.

This professional-standard Ethernet switch has 5 ports and a powerful processor to avoid network slowdown and data crashes.

It also provides Power over Ethernet on four ports. Desktop case with optional 19" rack mount brackets. The dmXLAN switch5 is silent as the design does not require a ventilation fan.

Features include:

- High speed, high capacity Ethernet switch
- 5 Ethernet 10/100MBit ports at front including 1 uplink
- Truss mounted using M10 beneath, or desktop mounted
- Power Over Ethernet supplied on four ports
- No fans - completely silent
