

FD4

LEDFRE210

The FD4 is a professional LED theatrical fresnel. It features a 15° to 60° electronic and manual zoom with a powerful 300W LED engine. It uses high quality LEDs, tuned to a temperature of 3200K. Boasting a CRI of over 96, this fresnel provides solid and accurate colour representation for video and photography. The FD4 is a lightweight, dependable fresnel, ideal for situations where both small size and power is required.
