

LED PAR HEX-7

LEDPAR072

The LED PAR Hex 7 is the first in our new range of 6 in 1 LED pars. Based on the same chassis design from our popular Quadpar series, the Hex 7 features 6 x 12W RGBWAUV high power chips, giving you not only amazing colour mixing potential, but the superior output that made the Quad series so popular as well.

The unit also features all the options you would expect in a professional par product; Neutrik powercon in and through, both 3 & 5 pin XLRs for DMX, all in a rugged diecast housing. The advanced fanless convection cooling system means that the LED PAR Hex 7 is at home on any stage; all the way from theatre to rock and roll and everywhere in between.

Specifications

Product	LED PAR Hex-7
Code	LEDPAR072
