# LED PAR QUAD-18 IP65

LEDPAR182

Based on our very popular QUAD 18 LED Par, this IP65 version uses exactly the same RGBW 8Watt Quad chips. This means you know what output levels you will get well in advance.

Designed to blend in with the existing QUAD stock in your inventory this IP rated fixture is equally at home operating indoors as it is outdoor. Compact, attractive and reliable it's hard to beat.

This unit differs from the 'standard' QUAD 18 by it connections only. Supplied with IP rated connectors this unit is perfect for sitting outdoors on a rainy gig and not being too upset about it.

Complete with our double yoke and the tried and tested Show Technology menu operating system.
