# LED PAR HEX-18 IP65

**LEDPAR183**

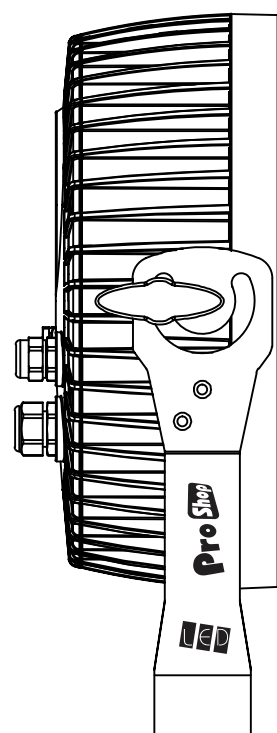

Using the same well respected housing and shape as our other class leading LEDPARs this new HEX PAR offers two new features. RGBWA-UV LEDs and the ability to be used in outside applications due to its IP65 protection rating.

This super flexible LEDPAR allows you to flood almost any area with dynamic light as it uses 18 x LED Chips with lots of output. The RGBWA allows you to mix the broadest range of colours possible with LED including pastels. The UV Chips have lots of output, providing more UV output than that of 2 x 400watt UV floods. In effect this is three fixtures in one, perfect for the rental house who needs maximum flexibility from their rental stock.

## Specifications

Product	LED PAR Hex-18
Code	LEDPAR183
LED Quantity	18 x 12W RGBWAUV 6 in 1 LEDs
Power Supply	100-240V AC, 50/60Hz
Power Consumption	200W
Control Protocol	DMX
Data Connection	3-pin, IP65
