LED ePAR UV

LEDPAR223

The ePar UV uses the latest in COB LED Technology to provide high quality UV Light. The 127w LED Engine provides 230 Lumens with a wavelength of 365nm, this wavelength ensures a strong UV presence onstage with minimum purple glow, perfect for use with UV paint, bright UV reactive costumes and set pieces. The ePar range of products are built around a Diecast Aluminium body with a set of detachable front lenses giving users more flexibility. With 4 dimmer modes and selectable PWM frequencies the ePar is the perfect workhorse fixture for Production Companies, Film, TV and Install.
