LED UP QUAD -4

LEDSET004

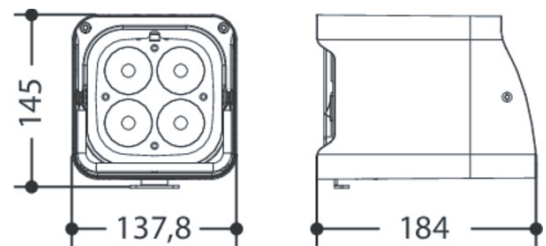

LED UP Quad-4 - Our intermediate battery operated uplighters come in a smart nylon four pack carry case for easy transport and deployment.

Using 4 x 10Watt RGBW LEDs as well as a simple-yet-clever base mounted gimble system these are designed to work for your AV company, venue or rental house for many many gigs over and over again.

Presented in corporate matt black and smart looking these uplights are complete with either on fixture or WIFI control* via the free SHOW TECHNOLOGY APP means you no longer need to be a DMX wizard to set up a great looking event space.

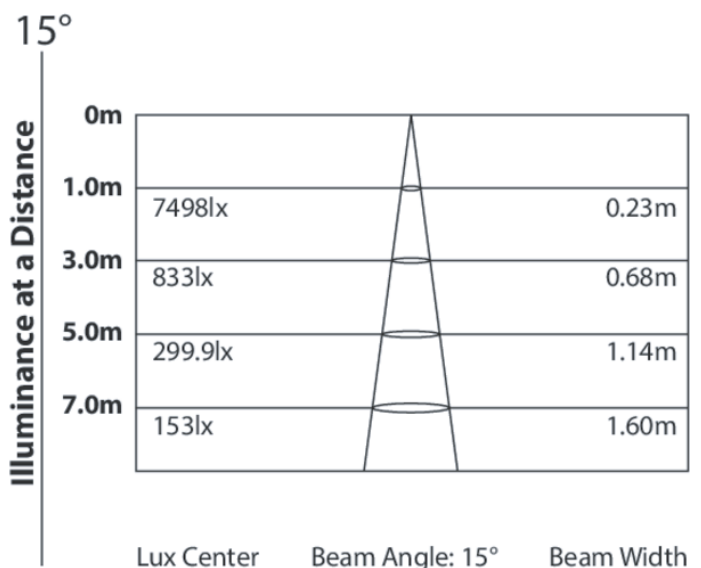

By creating your own little hotspot with the included WIFI adaptor you can simply select the fixtures on your smartphone app and adjust colours and brightness as required. These fixtures would also be perfect for those who have a 'dry hire' business to weddings, smaller corporate events and entertainment venues. Expect up to 12hours of operation from the lithium batteries with only a 5-hour charge time. Sold in packs of 4 they are also available individually.

* WIFI control sold separately.

Specifications
