

PIXIE WASH XB

MUSMOV210

ShowPRO Prolights Pixie Wash XB reinvents the concept of the moving LED wash light; bringing together the classic styling of a traditional wash luminaire and applying the very latest innovations in the field of LED technology.

The large frontal plano-convex lens delivers a stunning level of brightness and an exceptional zoom range with a 1:8 ratio, combined with a proprietary 280W RGB and warm white LED module delivering a high-quality white reproduction with high CRI and TLCI parameters as well an extremely precise colour tuning.

Pixie Wash XB is an ideal solution for any application where users want a superior light quality but without the view of multi-cell fixtures. Being compact, fast and silent, the Pixie Wash XB offers unprecedented flexibility and is ideal for use in theatres, TV, corporate and festivals.
