H1 BSW 480 HID

PSHMOV100

The H1 BSW is a powerhouse that takes after its IP rated brother, the Shark. Capable of producing 23,000 lux from 50 metres away using a 480w HID lamp, it produces a bright and clear beam from any angle, with an exceptional depth of field not found with LED equivalents. It has 8 rotating and 19 fixed gobos and can layer both 4- and 8-facet prisms to take advantage of a myriad of crisp air effects. It can utilise an amazing 2-degree angle for beam looks, while the wide 42-degree zoom provides an unparalleled flat field spot capability. An insertable frost filter transforms the beam into an even, saturated wash. Nothing can come close to the dominating power of the H1 BSW.

Specifications

Light Source:	480W lamp
Output:	155K lux @ 20m
Color Temperature:	7000K
Beam Angle:	Beam Mode:2.1° ~29° Spot Mode:2.3° ~42°
Color Mixing:	CMY and 15 filters
Gobo:	1 static gobo wheel (19+open), 1 rotating gobo wheel (8+open)
Animation:	1 animation wheel
Focus:	Motorized focus
Frost:	10°

Strobe:	0~12Hz
Dimming:	Linear 0~100%
Prism:	4-facet and 8-facet bi-directional , indexable with variable speed
Control:	DMX and RDM
Data Connections:	3Pin (or 5Pin) XLR IN/OUT for DMX
Power Connections:	TrueCon IN
Consumption:	650W/230V
Ambient:	-10℃~45℃
Dimension:	400.1 x 400 x 626.3 mm
Weight	25 kg
