Shark BSW IP65 480 HID

PSHMOV110

The Shark is a powerhouse capable of producing 23,000 lux from 50 metres away, made to impress. Featuring a 480w HID lamp, it produces a bright and clear beam from any angle, with an exceptional depth of field not found with LED equivalents. It has 8 rotating and 19 fixed gobos and can layer both 4- and 8-facet prisms to take advantage of a myriad of crisp air effects. It can utilise an amazing 2-degree angle for beam looks, while the wide 42-degree zoom provides an unparalleled flat field spot capability. An insertable frost filter transforms the beam into an even, saturated wash. An IP65 rating and magnesium alloy shell make the Shark a tour ready fixture usable in any weather. Nothing can come close to the dominating power that is the Shark.

SHARK

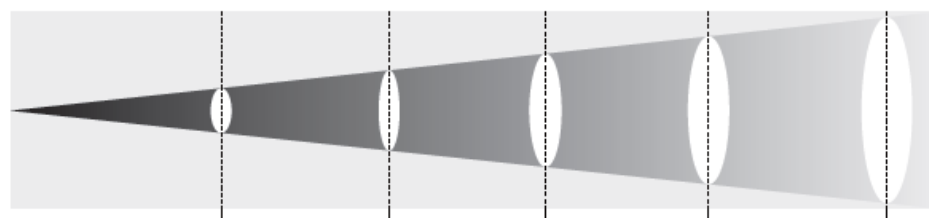

Specifications

Light Source:	480W lamp
Color Temperature:	7000K
Output:	16600 lm
CRI:	>80
Lamp Life:	3000hrs
Beam Angle:	2.3° ~42° (spot mode)
	2.1° ~29° (beam mode)
Pan:	540°
Tilt:	270°
Color:	CMY + color wheel (15 + 1)
Gobo:	1 rotating gobo wheel (8 + open)
	1 static gobo wheel(19 + open)

Zoom:	2.3° ~42° (spot mode)
	2.1° ~29° (beam mode)
Frost:	10°
Strobe:	0 ~ 12Hz
Prism:	Bi-directional rotating 8-f and 4-f prisms
Control:	DMX512
DMX Chchannels:	31CH
Ambient:	-20°C ~ 45°C
IP Rating:	IP65
Cooling:	IP fan and heat pipe
Dimension:	453*390*734mm
Weight:	33Kg
