IonWASH - Bundle of 4

SHWWSH100

The IonWASH is a powerful LED Wash designed to deliver rich colour and flexible performance across a wide range of applications. Featuring 12 x 40W RGBL LEDs, it produces rich, vibrant colours and a wide range of whites from warm to cool. Six segment pixel control provides additional creative possibilities for dynamic looks and effects, while the integrated battery enables operation without continuous mains power. With IP65 protection, Wireless DMX, Bluetooth and RDM control, the IonWASH is well suited to both indoor and outdoor applications.

IonWASH Specifications

Optical System

Lamp Source	12 x 40W RGBL LEDs
Beam Angle	10°
CCT	1800K to 10,000K

Electrical Specifications
